

I-CRAFT &2023

3RD International Conference on
Research of Agricultural and Food
Technologies 2023 October 04 & 06
Adana, Turkiye

All accepted papers of I-CRAFT 2023 will be published in a single volume by BIO Web of Conferences (ISSN: 2117-4458), which will be submitted for indexing in CPCI(Conference Proceedings Citation Index), Google Scholar, EBSCO, ProQuest, DOAJ.

The Varda Viaduct (Turkish: Varda Köprüsü), aka Giaour Dere Viaduct, locally known as "Alman Köprüsü" or "Koca Köprü" (literally: German Viaduct or Big Viaduct), is a railway viaduct situated at Hacıkırı (Kıralan) village in Karaisalı district of Adana Province in southern Turkey.

About Events

Dear Colleagues,

We are very delighted to organize the 3RD International Conference on Research of Agricultural and Food Technologies (I-CRAFT 2023) which will be held on 4-6 October 2023 at Cukurova University located in Adana, Turkiye.

The primary purpose of the conference is to form a venue to disseminate scientific information on various current and near-future applications of agricultural and food engineering practices and technologies used in the different parts of Turkiye and throughout the world. In this framework, many academicians, researchers, entrepreneurs and manufacturers related to the study area of agricultural and food engineering from Turkiye and other countries will have the opportunity to mutually convey their experiences and ideas to their colleagues and stakeholders. Hence, we cordially invite you to attend this important event.

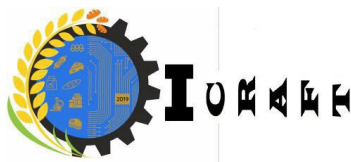

“ Makes your work and time valuable. ”

Topics

- Applications in Agriculture Bioenergy and Biofuel Technologies
- Artificial Intelligence Technologies Automation Technologies In Agriculture
- Applications In Agriculture Food Processing Technologies Animal Science
- Crop science Techniques and Technology Machine Vision Technologies In Agriculture
- Fruit and Vegetable Production Technologies Precision Agriculture Technologies
- Horticulture Techniques and Technology
- Agricultural and Food Policies Bioystems Engineering
- Remote Sensing and GIS Applications In Agriculture
- Harvest and Post-Harvest Technologies
- Visible and Infrared Spectroscopy Applications In Agriculture
- Greenhouse Technologies Drying Technologies Ergonomics and Safety In Agriculture
- Global Warming and Climate Change Agricultural
- GNSS and GPS Applications in Agriculture Sustainable Agriculture Technologies
- Structures Open Topics Biotechnology Agriculture and Environment
- Robotic Applications In Agriculture Irrigation and Drainage Engineering
- Unmanned Aerial Vehicle Food Engineering New Food Processing Techniques

“Looking forward to see you all in our conference “

LETTER OF INVITATION

3RD International Conference on Research of Agricultural and Food Technologies (I-CRAFT-2023)

4-6 October 2023, Cukurova University, Adana, Turkiye

Dear Colleagues,

We are delighted to organize the International Conference on Research of Agricultural and Food Technologies (I-CRAFT-2023) held on 4-6 October 2023 at Cukurova University in Adana, Turkiye.

The primary purpose of the conference is to form a venue to disseminate scientific information on various current and near-future applications of agricultural and food engineering practices and technologies used in different parts of Turkiye and worldwide. In this framework, many academicians, researchers, entrepreneurs and manufacturers related to the study area of agricultural and food engineering from Turkiye and other countries will have the opportunity to mutually convey their experiences and ideas to their colleagues and stakeholders. Hence, we cordially invite you to attend this important event.

The conference will be held at Cukurova University in Adana city. Being located in central-south Turkiye, Adana has a population of about two million making it the fifth most populous city of Turkiye. Adana is situated on the Seyhan River and on the Cukurova plains, a very important agricultural area with rich cultural and historical assets. The congress will offer both an academic and a different cultural and historical perspective to the participants and guests.

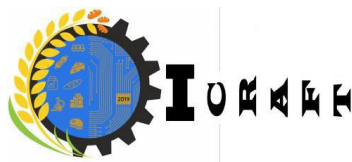

The presentation language of the conference will be English. Proceedings considered only as research articles and in English will be accepted. All submitted proceedings will be evaluated by two independent reviewers in terms of scientific content and quality.

All accepted papers of I-CRAFT 2023 will be published in a single volume by BIO Web of conferences (ISSN: 2117-4458), which will be submitted for indexing in CPCI (Conference Proceedings Citation Index), Google Scholar, EBSCO, ProQuest, DOAJ.

In this respect, we cordially invite you to attend this exciting conference on topics related to almost every stage of agricultural and food production.

Prof. Dr. Salih Kafkas
Hon'ble Chair

CONFERENCE TOPICS

Automation Technologies in Agriculture	Food Engineering	Animal Production Technologies
Artificial Intelligence Applications in Agriculture	Crop Science Techniques and Technology	Animal Science
Machine Vision Technologies in Agriculture	Fruit and Vegetable Production Technologies	Horticulture Techniques and Technology
Precision Agriculture Technologies	New Food Processing Techniques	Sustainable Agriculture Technologies
Remote Sensing and GIS Applications in Agriculture	Agricultural and Food Policies	Biosystems Engineering
Robotic Applications in Agriculture	Harvest and Post-Harvest Technologies	Irrigation and Drainage Engineering
Unmanned Aerial Vehicle Applications in Agriculture	Bioenergy and Biofuel Technologies	Ergonomics and Safety in Agriculture
Visible and Infrared Spectroscopy Applications in Agriculture	Greenhouse Technologies	Drying Technologies
GNSS and GPS Applications in Agriculture	Global Warming and Climate Change	Agricultural Structures
Agriculture and Environment	Biotechnology	

REGISTRATION FEES

	Participants From Turkiye	Participants From Developed Countries *	Participants From Non-Developed Countries **
Registration fee (includes two proceedings)	1000 TRY	150 Euro	125 Euro
Accompanying person fee	750 TRY	125 Euro	100 Euro
Student	500 TRY	100 Euro	75 Euro
Additional Registration fee (For each extra proceeding exceeding one proceeding)	250 TRY	50 Euro	25 Euro

Venue

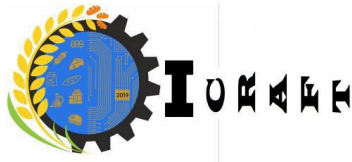

The conference will be held in ADANA city, south-central of TURKIYE. The city is situated in the plain of CUKUROVA (Cilicia), on the Seyhan River (the ancient Sarus River). An agricultural and industrial center country's one of the largest city. It probably overlies a Hittite settlement that dates from approximately 1400 bce, and its history has been profoundly influenced by its location at the foot of the Taurus Mountain. To pick up news more about the city please visits the websites below;
