

PERSONEL INFORMATION	
Name Surname	KUDRET BEREKATOĞLU
Title	Agriculture Engineer
Phone	0412 326 13 18 – 0412 326 13 40/301
E-mail	kudret.berekatoglu@gthb.gov.tr kberekatoglu@hotmail.com
Birth place/date	23.07.1970-Mardin

EDUCATION INFORMATION	
Doctorate	
University	
Academic unit / Graduation year	
Master	
University	Harran University
Academic unit / Graduation year	Institute of science and technology, department of agricultural structures and irrigation 2004
Bachelor	
University	Cukurova University
Academic unit / Graduation year	Agriculture Faculty , department of agricultural structures and irrigation 1994

FOREIGN LANGUAGE INFORMATION				
Foreign language/ Degree	KPDS	YDS	TOEFL	IELTS
English				

PLACES OF DUTY (Date/title/institute)
2014- Assist Director GAP International Agricultural Research and Training Center.
2011-2014 Technical Coordinator GAP International Agricultural Research and Training Center ministry home page tr
2006-2011 Assist Director Diyarbakır southeastern anatolia agricultural research Institute
1996-2006 Engineer Directorate of Şanlıurfa Rural Services research Institute
1995-1996 General Secretary Harran Plain Irrigation Unit

ARTICLES & SCIENTIFIC PAPER
International articles scientific paper
1- E. DOĞAN, H. KİRNAK, K. BEREKATOĞLU , L. BİLGEL AND A. SURUCU 2008, Water stress imposed on muskmelon (<i>Cucumis Melo L.</i>) with subsurface and surface drip irrigation systems under semi-arid climatic conditions, Irrigation Science (2008) 26:131-138
2- KİRNAK. H., E. DOĞAN, L. BİLGEL, K. BEREKATOĞLU , "Effect of preharvest deficit irrigation on second crop watermelon grown in an extremely hot climate". Journal of irrigation and engineering-asce, 135(2) 141-148 (2009).

PROJECT BEING CONDUCTED
Projects being continued
<ol style="list-style-type: none"> 1- Determination of effects different amounted nitrogen applications with fertigation on sugar maize yield and yield components (being continued) 2- Determination of pomological and phenological properties, yield, development of domestic almond types in Diyarbakır and some foreign almond varieties (being continued) 3- Effects of narrow and double row planting method in maize on yield, yield components and some soil properties (being continued) 4- Design and mapping of database and determination of potential toxic element content and plant nutrient substance of agriculture soil of Diyarbakır, Sırnak and Batman (being continued) 5- Development of line of high quality and resistant to verticillium paleness disease cotton and fibre yield by using molecular technology TUBİTAK 1003) (being continued) 6- Solar farm Project GAPUTAEM (Karacadag development Agency)
Conducted projects
<ol style="list-style-type: none"> 7- Research on precipitation of Adıyaman-Kahta Harabe Stream Basin 8- Examination of water harvest with negarim type microbasin method in which different cover material is used in pistachio gardens of Sanlıurfa 9- Effect of different operating techniques of furrow irrigation methods in conditions of Harran Plain and water and soil resources on Maize yield 10- Effect of different irrigation levels of melon irrigated by surface and ground drip irrigation in semi-arid conditions on yield and development 11- Determination of irrigation systems and effects within the Irrigation Project of Sanlıurfa Bozova summer pasture plain 12- Development of design criterion of subsurface drainage systems in Harran Plain 13- Determination and development of physical and social economic operating problems in some irrigation facilities in GAP region 14- Sustainable flood risk management in agricultural family-run business (EU Project) 15- Determination of reactions of some cotton varieties in arid stress and normal irrigation
