TRANSITIONAL ZONE AGRICULTURAL  
RESEARCH INSTITUTE/ ESKISEHIR

## MUSTAFA CAKMAK

### Agricultural Engineer

#### EDUCATION

Assoc. prof

PhD

**MSc**  
2007-2010 Selcuk University- Institute of Science, Field Crops

**Bachelor's Degree**  
1996-2000 Ondokuz Mayis University Faculty of Agriculture

**LANGUAGE** English YOKDIL 60

#### CAREER

2002- Researcher. Transitional Zone Agricultural Research Institute / ESKISEHIR

1997-2002 Technician. District Directorate of Agriculture Tekkeköy-SAMSUN

1995-1997 Technician. District Directorate of Agriculture Saraykent-YOZGAT

1993-1995 Technician. District Directorate of Agriculture Boyabat-SINOP

1989-1993 Technician. District Directorate of Agriculture Kozluk-BATMAN

#### ABOUT ME

I started to work for the Ministry of Agriculture and Forestry as a technician in 1989. I studied the department of cool-season cereals from 2002 to 2017 as a cereal breeder on bread and durum wheat, barley, oat, and triticale plants. I have contributed to the development of ten bread wheat cultivars (Mufitbey, Nacibey, ES26, Yunus, Mesut, Reis, Aksungur, Beyhan, Ramisbey, Karaduman), two durum wheat (Dumlupınar, Levent), and two barley varieties (Sabribey, Yuksel).

I have carried out breeding and agronomy projects on saffron, cumin, black cumin, fenugreek and anise plants in the department of medicinal and aromatic plants and plant genetic resources studies since 2018

**TAGEM**  
R&D AND INNOVATION

### ▪ **PROJECTS**

#### ▪ **Projects Conducted**

1. Winter Bread Wheat Breeding Studies in Transitional Zone. 2002-2017/ Breeder
2. Winter Durum Wheat Breeding Studies in Transitional Zone. 2002-2017/ Breeder
3. Barley Breeding Studies in Transitional Region. 2010-2017/ Breeder
4. Triticale Breeding Studies in Transitional Region. 2014-2018/ Breeder
5. Oat Breeding Studies in Transitional Region. 2014-2018/ Breeder
6. Determination of Quality Characteristics of Winter Bread Wheat Breeding Material Developed by Transitional Zone Agricultural Research Institute. Researcher
7. Determination of Quality Characteristics of Winter Durum Wheat Breeding Material Developed by Transitional Zone Agricultural Research Institute. Researcher
8. Determination of Morphological and Physiological Traits in Transitional Zone Agricultural Research Institute Winter Bread Wheat Breeding Materials. 2014-2018/ Researcher
9. Wheat Root and Crown Rot Disease and Resistance cyst and lesion nematodes Resources Development project. 2011-2015/ Researcher
10. Determination of Physiological Parameters usable in Bread Wheat Breeding. 2008-2013/ Researcher
11. National Cool Climate Cereal Disease Research Project. 2009-2018/ Researcher
12. Determination of Quality Traits, Drought and Diseases Tolerance of Winter Bread Wheat Crossing-Block. 2012-2014/ Researcher
13. Resistance Breeding Studies for Winter Bread Wheat Diseases in Transition Zone. 2016-17/ Researcher
14. Determination of seed dormancy-preharvest sprouting resistance and some quality traits in the bread wheat landraces and rural wheat lines developed from rural wheat populations. 2014-2018/ Researcher
15. Development of Molecular Markers for Resistance to Yellow Rust Disease in Winter Bread Wheat (*Triticum aestivum L.*). 2006-2010/ Researcher

#### ▪ **Ongoing Projects**

1. Determination of the effectiveness of biofertiliser and biological fungicides in cumin (*Cuminum cyminum L.*) and material development studies by physical mutation application. 2021-2023/ Researcher
2. Western Transitional Zone Vegetable Genetic Resources Project. 2022-2026/ Researcher
3. Saffron from Hand of Woman 2021-2023/ Researcher
